Summary Information

Repository:	University of Nevada, Las Vegas. University Libraries. Special Collections and Archives.
Creator:	Broudy, Pat, 1923-2017
Title:	Alice P. Broudy Papers on Broudy v United States
ID:	MS-00097
Date [inclusive]:	1940-2018
Physical Description:	54.02 Cubic Feet (105 boxes, 3 oversize boxes, and 2 flat files)
Physical Description:	54.41 Linear Feet
Physical Description:	2 Digital Files (0.0142 GB) JPEG
Language of the Material:	English
Abstract:	The Alice P. Broudy Papers on Broudy v United States (1940-2018) comprise materials collected and created by the wife of Charles A. Broudy during her effort to obtain compensation for his death in 1977, which she believed to be a result of repeated radiation exposure. Materials include government documents obtained through the Freedom of Information Act (FOIA), correspondence, memos, litigation papers, scholarly reports and articles on radiation exposure and its effects, congressional testimony, speeches, newspaper clippings, books and audiovisual materials. Also included are photographs, slides, and one box of Alice "Pat" Broudy's personal papers. There are two boxes of papers that remain unprocessed.

Preferred Citation

Alice P. Broudy Papers on Broudy v United States, 1940-2018. Special Collections and Archives, University Libraries, University of Nevada, Las Vegas. Las Vegas, Nevada.

Biographical Note

Radiation survivors advocate "Pat" Broudy was born Alice Patricia Sutton in Overland, Kansas in 1923 at the home of her grandparents. She spent her formative years in Kansas City, Missouri. In 1948, she ventured with friends to San Francisco, California where she met Marine Major Charles A. Broudy. Major Broudy was attending radiological school there. After a whirlwind courtship they were married in 1949. Major Broudy had already served in WWII as a pilot in the Pacific theater. He was among the first to land

in Hiroshima and Nagasaki after the atomic bombs were dropped. He went on to serve in the Korean War before being sent to El Toro Marine Base in Irvine, California. While there he was directed to the Nevada Test Site to witness the nuclear blasts that were being performed routinely.

From the start Pat Broudy expressed concerns about the amount of radiation exposure to which her husband and many other servicemen were subjected. This fear resurfaced when Charles Broudy passed away in 1977 from Non-Hodgkin Lymphoma. From 1977 on Broudy dedicated her life to raising awareness about atomic veterans, downwinders, and their families. She worked to bring justice and compensation to the veterans who were exposed to ionizing radiation during the nuclear testing period from 1946 through 1963.

Broudy served as legislative director for the National Association of Radiation Survivors (NARS) and legislative director for the National Association of Atomic Veterans (NAAV). In these positions, she collaborated with many other organizations to call on legislators and staff of the United States House and Senate Veterans Affairs Committees to recognize the injustice of ignoring the pain and suffering of atomic veterans. Her positive relationship with the Department of Veterans Affairs resulted in a helpline to explain to veterans their benefits under the law. She worked closely with the staffs of Senator Alan Cranston and Senator Harry Reid to exact change in antiquated policies.

Ms. Broudy passed away in California on December 31, 2017.

Scope and Contents Note

The Alice P. Broudy papers on Broudy v United States (1940-2018) are comprised of materials collected and created by the wife of Charles A. Broudy, during her effort to obtain compensation for his death in 1977, which she believed was a result of repeated radiation exposure. Major Broudy was born on August 18, 1919 in Detroit, Michigan and served in World War Two and spent his last years in the military at the Nevada Test Site. Materials include government documents obtained through the Freedom of Information Act (FOIA), correspondence, memos, litigation papers, scholarly reports and articles on radiation exposure and its effects, congressional testimony, speeches, newspaper clippings, books and audiovisual materials. Also included are photographs, slides, medical records, and there is one box of Alice "Pat" Broudy's personal papers. There are also two boxes of papers that remain unprocessed.

[^ Return to Table of Contents](#)

Arrangement Note

Collection is divided into eight series:

Series I. U.S. Government Records, 1944-2014;

Series II. Publications and Correspondence, 1945-2007;

Series III. Radiation Research Files, 1946-2006;

Series IV. Legal Files, 1946-2002;

Series V. Audiovisual and Photographic Materials, 1946-2000 and undated;

Series VI. Charles A. Broudy Service Records, 1940-1985;

Series VII. Charles A. Broudy Medical Records, 1941-2006;

Series VIII. Alice Patricia Broudy Personal files, 1967-2018.

[^ Return to Table of Contents](#)

Administrative Information

Access Note

Collection is open for research. Arrangements must be made in advance in order to access digital files; please contact UNLV Special Collections and Archives for additional information.

Publication Rights

Materials in this collection may be protected by copyrights and other rights. See [Reproductions and Use](#) on the UNLV Special Collections website for more information about reproductions and permissions to publish.

Acquisition Note

Materials were donated by Alice P. Broudy in 2007 and 2008; accession numbers 2007-27, 2008-05. Additional materials donated in 2017 by Stefani Evans; accession number 2017-151.

Processing Note

Material was processed in 2014 by Joyce Moore and entered into ArchivesSpace by Joyce Moore and Christina Molina. Additional accession was processed in 2018 by Joyce Moore.

[^ Return to Table of Contents](#)

Related Materials

Separation Note

A number of greeting cards of a personal nature were removed from the collection and returned to the family.

Collection Inventory

U.S. Government Records, 1944-2014

Physical Description: 19.7 Cubic Feet (43 boxes)

Physical Description: 18.61 Linear Feet

Scope and Contents Note: The government records series, from 1944 to 2004, include atomic testing schedules, detonation reports and ship's log books for Bikini Islands and Marshall Islands and detailed material on the Nevada Test Site (NTS) operations. The NTS information includes underground nuclear test census information from Reynolds Electric and Engineering Company (REECo), the main government contractor for the site. The NTS and general reports are comprised of fallout reactions to the environment and in ground personnel, contamination estimates, analysis of information, and legislative actions.

Arrangement: Material is arranged into two sub-series: a. Nevada Test Site Project Reports and b. General government records.

Nevada Test Site Project Reports, 1956-2014

Physical Description: 8.17 Cubic Feet (20 boxes)

Physical Description: 8.13 Linear Feet

Scope and Contents Note: The Nevada Test Site Project Reports subseries focuses on the various above ground and underground tests that took place in Nevada from 1956 through 1963. There is information regarding the overall testing process and its effects on ground personnel. The specific projects are represented by a special code name, i.e., Roller Coaster, and contain statistics, characteristics of each blast, projections for future blasts, and radiation assessments. Additional census reports from the main government contractor of the test site, Reynolds Electric and Engineering Company, Inc., are also included.

Arrangement: Material is arranged alphabetically.

Publications and Correspondence, 1945-2007

Physical Description: 11.14 Cubic Feet (19 boxes and 1 flat file)

Physical Description: 11.67 Linear Feet

Scope and Contents Note: The Publication and Correspondence Series dates from 1945 to 2007 and includes printed materials, such as books, government reports, pamphlets, and news articles that Broudy used in her research. Articles include photocopies of book chapters. Many of the news clippings and articles were sent to Broudy by other interested parties.

Arrangement Note: Items are arranged by format and have largely been left in original order.

Radiation Research Files, 1946-2008

Physical Description: 12.97 Cubic Feet (27 boxes)

Physical Description: 13.63 Linear Feet

Scope and Contents: The Radiation Research Files series contain records from 1946 to 2008 from the National Association of Radiation Survivors (NARS), National Association of Atomic Veterans (NAAV), and reports on the depletion of uranium through atomic testing. Materials also include committee reports and correspondence, primarily to and from the Veteran's Administration (VA), health risk assessments, and articles focusing on radiation fallout.

Arrangement Note: The National Association of Radiation Survivors, the National Association of Atomic Veterans, and papers regarding the depletion of uranium are filed alphabetically. The remainder of the material continues in alphabetical order.

Legal Files, 1946-2002

Physical Description: 4.75 Cubic Feet (10 boxes)

Physical Description: 4.21 Linear Feet

Scope and Contents Note: The Legal Files series (1946-2002) comprises an accumulation of documentation about the legal actions taken by Alice P. Broudy against the Federal Government and the Veteran's Administration for the death from cancer of her husband, Major Charles A. Broudy, from alleged ionized radiation poisoning. Included in this material are other legal cases and hearings brought by other widows of U.S. servicemen who were also exposed to radiation and subsequently died, cases in which Alice P. Broudy served as an expert witness.

Arrangement Note: Material is divided into the primary case files of Alice P. Broudy, appeals from Broudy, and case files from other plaintiffs. There are also litigation files that contain logbooks, notebooks, reports, and testimonies. Civil cases, litigations, and hearings are all in rough chronological order.
