Summary Information

Repository:	University of Nevada, Las Vegas. University Libraries. Special Collections and Archives.
Creator:	Wilson, Gary Guy, 1941-
Title:	Gary Guy Wilson Architectural Drawings
ID:	MS-00439
Date [inclusive]:	1965-1996
Date [bulk]:	1972-1992
Physical Description:	145.39 Cubic Feet (613 rolls) 613 sets of drawings
Physical Description:	153.67 Linear Feet
Language of the Material:	English
Abstract:	The collection is comprised of drawings (1965-1996) completed by American architect Gary Guy Wilson and/or his architectural firm, Gary Guy Wilson, AIA, Architect Studios and contains 613 sets of drawings from over 250 different projects. Primarily focused on the Las Vegas, Nevada area, the materials feature hand-drawn architectural drawings, ranging from preliminary sketches to construction documents, and a number of printed computer aided drawings. The drawings also contain work from a number of consultants, engineers, and other architects who collaborated on the development of the various projects. The drawings include: commercial and professional buildings of varying scales, such as convenience stores, hotels, casinos, shopping centers, and office developments; schools; military buildings at both Nellis and Indian Springs Air Force Bases; multi-family residential developments; and custom single-family homes located throughout the Southwest (United States).

Organizational History for Gary Guy Wilson, AIA, Architect Studios

Established in 1969 in Las Vegas, Nevada, Gary Guy Wilson, AIA, Architect Studios embodies Wilson's design philosophy and reflects local cultural characteristics. Wilson's firm, organized into specialized

studios, works on a wide variety of public projects for local and federal governments, such as educational facilities and government centers, including buildings at both Nellis and Indian Springs Air Force airfields. His firm also works on a wide variety of private projects such as hotels, casinos, shopping plazas, and professional offices, as well as a variety of single and multi-family residences. Wilson and his firm have worked on over 1350 projects in as many as 14 states, contributing significantly to the growth and development of Las Vegas, Nevada and the southwestern United States.

Biographical Note for Gary Guy Wilson

Gary Guy Wilson and his architectural firm, Gary Guy Wilson, AIA, Architect Studios, have worked on over 1350 projects in as many as 14 states since 1969. Wilson has built his firm's reputation over a period of 40 years. From towering hotel and casino projects to modest individual residential projects, Wilson has instilled identity by combining and balancing "elements of practicality, utility, and delight" into architecture designed with functionality and economic awareness in mind. Known for his work on hotel and casino projects such as Circus-Circus and the Aladdin, he has been an important contributor to the growth and development of Las Vegas, Nevada and the southwestern United States. Wilson was born in on April 13, 1941 in Salt Lake City. He received a Bachelor of Architecture from the University of Utah in 1966 and concurrently interned with Young, Fowler, and Associates in Salt Lake City. After graduation, Wilson worked for three years as a project architect for John Fodor and Associates in Norwalk, Connecticut on a number of public and private projects. In 1969 Wilson moved to Las Vegas, Nevada and established Gary Guy Wilson, AIA, Architect Studios. Wilson, a member of the Las Vegas Chapter of the American Institute of Architects (AIA) since 1970, served as the President of the AIA Las Vegas chapter in 1976 and was elected to serve on the 2013-2014 AIA Las Vegas Board of Directors.

[^ Return to Table of Contents](#)

Scope and Contents Note

The Gary Guy Wilson architectural drawings (1965-1996) contain 613 sets of drawings from over 250 different projects in the southwestern United States, with a strong focus on the Las Vegas, Nevada area. The materials feature hand-drawn architectural drawings, ranging from preliminary sketches to construction documents, and a number of computer aided drawings printed with inkjet--showing the changing media of communicating architectural design through the years. The drawings also contain work from a number of consultants, engineers, and other architects who collaborated on the development of the various projects, or, which served as Wilson's precedents and inspirational material.

The drawings include commercial and professional buildings of varying scales, from 7-Eleven convenience stores to shopping and office developments such as the Renaissance Center Shopping Plaza; renovations to both the Sands and Dunes hotels and casinos; schools, including Rancho High School; military buildings at both Nellis and Indian Springs Air Force Bases; several multi-family residential developments like Smoke Ranch and Lakes Landing; and custom single-family homes located throughout the Southwest (United States). There are a number of imaginative designs for projects that were not built. Of particular interest, an unrealized design for the "Ceasar's Towers Hotel and Casino"; a proposed volcanic-shaped, tiki-themed modification for the Xanadu Hotel and Casino (an unrealized plan by architect Martin Stern Jr., located on the current site of the Excalibur Hotel and Casino); and a number of sports arena proposals located at the Hilton International, Xanadu Hotel and Casino, and Thunderbird Hotel and Casino.

[^ Return to Table of Contents](#)

Arrangement

Drawings are arranged by project.
