Biographical Note

Former United States Democratic Congresswoman Shelley Berkley represented Nevada's 1st Congressional District from 1999 to 2013, an area that includes most of Las Vegas. During her seven terms as a member of the U.S. House of Representatives, the district benefited from millions of dollars of federal funding for education, transportation, and other projects. She also successfully fought against storing nuclear waste at Yucca Mountain in Nevada. Shelley Berkley was born Rochelle Levine in New York City in 1951 and moved to Las Vegas during junior high. She practiced law in Las Vegas and served in the Nevada Assembly for two years. She was also a member and vice chair of the Nevada University and Community College System Board of Regents.

Berkley attended the University of Nevada, Las Vegas where she served as student body president and graduated with honors in 1972 with a B.A. in political science. After obtaining her J.D. in 1976 from the University of San Diego, she returned to Las Vegas to practice law. From 1976 to 1979 Berkley was Deputy

Director of the Nevada State Department of Commerce. She provided legal counsel to several casinos at various points in her career, served as national director of the American Hotel-Motel Association, and founded the Southern Nevada Association of Women Attorneys and the Senior Law Project. In 1977 she married Frederic Berkley and had two children, Max and Sam. She remarried in 1999 to Dr. Lawrence Lehrner of Las Vegas, who also had two children from a previous marriage.

Before being elected to Congress, Berkley served on the board of the American Israel Public Affairs Committee. She continued her vocal support of Israel in Congress and was heavily involved in all matters related to the Middle East. She was a member of several committees, including: Foreign Affairs, Veterans Affairs, Ways and Means, Small Business, and Transportation. Building a new Veterans Administration medical complex in Southern Nevada and sponsoring many pieces of healthcare legislation are also among her accomplishments as a U.S. Representative.

Subject files: digital, 1999-2012 (2007-2012)

Physical Description: 0.5 Linear Feet (1 box, 1 hard drive) 1.26 gigabytes: 233 digital folders, 2,059 digital files

Scope and Contents Note: Shelley Berkley's digital subject files (1999-2012) primarily consist of documentation related to a wide variety of issues that were important to her constituents, including the economy, environment, security, education, housing, international relations, and the rights of under-represented communities. Files include supporting documents and talking points used for Congressional speeches, committee work, events, and interviews. Berkley's speeches are captured in textual documents as well as some video recordings of speeches she gave on the floor of Congress and in committees. Files also include correspondence to fellow Congressman, other government officials, and constituents related to the issues documented in the series.

Arrangement: Files remain in original order, arranged alphabetically by subject.

Access Note: Digital files are open for research. Advance notice and arrangements are required for access; please contact Special Collections for more information.

Processing Note: Karla Irwin minimally processed the born-digital materials and subsequently entered descriptive information into ArchivesSpace in 2015. A screen capture was created for the files in the Ros-Lehtinen Reform Bill folder in place of the JPGs, PNGs, GIFs, CSSs, JSs (JavaScript), HTMs, and SWFs. The original files supported the rendering of a Huffington Post website article titled "Ros-Lehtinen Hijacks Pro-Israel Support for Extreme Anti-UN Bill." The article and first page of comments were fully captured in the screen shot. The original files are preserved on the hard drive. Unless otherwise noted, all files were converted to PDFs for access. Personal phone numbers, home addresses, and email addresses were redacted in the PDF files. One XLS file was converted to read only. Video files were converted to MP4. As of November 2015 MODI files have not been converted for access. Empty folders were deleted in the access directory. Finally, because conversions to new file formats result in a last modified date change, screenshots of file directories with the correct last modified date are included in each access folder of the collection.
