Scope and Contents

The John R. Moser Real Estate Appraisal Records contain nineteen appraisal reports from Las Vegas and rural Southern Nevada (Lincoln and Nye counties) from 1962 to 1972. The reports contain information on the market value for the property and contextual information explaining the appraisals. Reports usually offer the appraiser's analysis of the "best" (most economically profitable) use of the property; detailed identification of the property and description of buildings, improvements, livestock and equipment; regional and area data affecting property value; income and cost analysis of the sales of comparative properties in the area. The reports often include photographs and maps of the properties. Significant Las Vegas property appraisals include the Cinerama Theater on Paradise Road in 1964 when this area was still largely undeveloped, residential properties in the Scotch Eighties and Rancho Park Tract, and commercial properties on Industrial Road. This collection also contains photographic negatives of properties, and four trays and two boxes of slides of desert flora and landscapes around Nevada and Idaho such as Groom Mountain Range, White Bird Canyon, Salmon River Valley, Clover Valley, and Ruby Mountains.
